

Georgetown Lutheran Church Sunday School Report

What a wonderful year this has been. We started out our Sunday school year with blessing of the animals. The kids love to tell me all about their furry, feathered, or scaly family members. They have come to look forward to the event.

It has also been a year of learning for our Sunday school children. We currently have a small group, but they have very inquisitive minds and are full of questions for learning the lessons of our Lord. We currently still use Lessons purchased through the oriental trading company. These have been a wonderful tool the last few years. The kids very much seem to enjoy them with the bright posters and easy to follow stories that also follow the stories in the "Spark Bibles" we have in the classroom. Every Sunday we do the lesson with a craft or experiment to tie into the lesson. The kids proudly display their creations in the hallway for all to see.

We have also "spruced" up the classroom. Posters to accompany the lesson plans were purchased and hung to help brighten up the classroom for the Kids. If you haven't stopped by to see, come take a look. The kids would love to show you their classroom.

This year we were unable to perform a Christmas program due to the small number of kids. I continue to reach out and invite families and friends to help grow our Sunday school. I please encourage others as well to invite families and friends to church and Sunday school.

I look forward to another fun year with our church's youth. They always brighten Sunday mornings and love to be at Sunday school and church.

God Bless

Nicki Norlund
